Mrs. Fang successfully completed an internship with QuantPI GmbH. She went beyond our expectations in terms of performance. She showed great enthusiasm at work and proved to be reliable in critical moments.

During her internship, Mrs. Fang was involved in multiple diverse tasks including the following:

- Working with the software team to coordinate development of new software features and resolve issues.
- Debugging and testing implementations of new algorithms.
- Supporting the development of the new company webpage.
- Collaborating with senior leaders to research and investigate new technical challenges.
- Proactively learning about new technologies in the field of eXplainable AI.
